

INTEGRATION OF  
TAX RATES

INTEGRATION- 2024

For illustration purposes only. All rates are based on 2023 tax rates applicable to B.C. residents who are at the top marginal tax rates. Corporations are assumed to be Canadian-controlled private corporations. Rates will be different for individuals and corporations not resident in B.C. and may change over time.

NOTES:

- 1. The corporate tax rate for portfolio dividends in this table applies only to eligible dividends based on the assumption that the investments are in public company shares. Dividends from public companies are generally eligible dividends.
- 2. A refund from the non-eligible RDTOH account will only be available when a CCPC pays a non-eligible dividend. Refundable Part IV tax on eligible portfolio dividends (38.33%) will be tracked in the eligible RDTOH account.
- 3. The dividends paid out of small business income and investment income in this table are assumed to be non-eligible dividends and subject to the higher non-eligible dividend tax rate as income of these types do not generate GRIP pool that enables payment of eligible dividends.

The dividends paid out of regular active business income and portfolio dividends in this table are assumed to be eligible dividends and subject to the lower eligible dividend tax rate as income of these types do generate GRIP pool that enables payment of eligible dividends.

- 4. A bonus is paid and deducted at the corporate level instead of paying corporate taxes. Unlike a dividend, a bonus will generate RRSP deduction room. Additional potential costs, such as CPP and EHT, are not included in the table above but may also need to be considered.
- 5. The 2024 Federal Budget proposes that capital gains realized after June 24, 2024 will be subject to a 2/3 inclusion rate, rather than 1/2. For individuals only, the first 250,000 of capital gains will continue to be subject to personal tax at the 1/2 inclusion rate.
